BOARD OF ADVISORY

TESTIMONIALS

FROM OUR CLIENTS

SMAN 8 – Jakarta

Elite Tutors has made comprehensive, target oriented, intensive, and discipline learning modules to help our child passed senior high school National Exam and top public university admission test. He/she admitted at the Faculty of Medicine of University of Indonesia.

Rizal Gozali (Parent)

SMA Labschool Kebayoran – Jakarta

My daughter was able to acknowledge the most possible opportunities to be achieved in a relatively short preparation time with Kak Sono's tutoring program. My daughter was not only learning for the admission tests preparation but she was also learning to achieve what she wants. The convenience of studying at our own home has created great learning environment without any tension. Finally, my daughter admitted at the Department of Management of Special International Class, the Faculty of Economics, University of Indonesia.

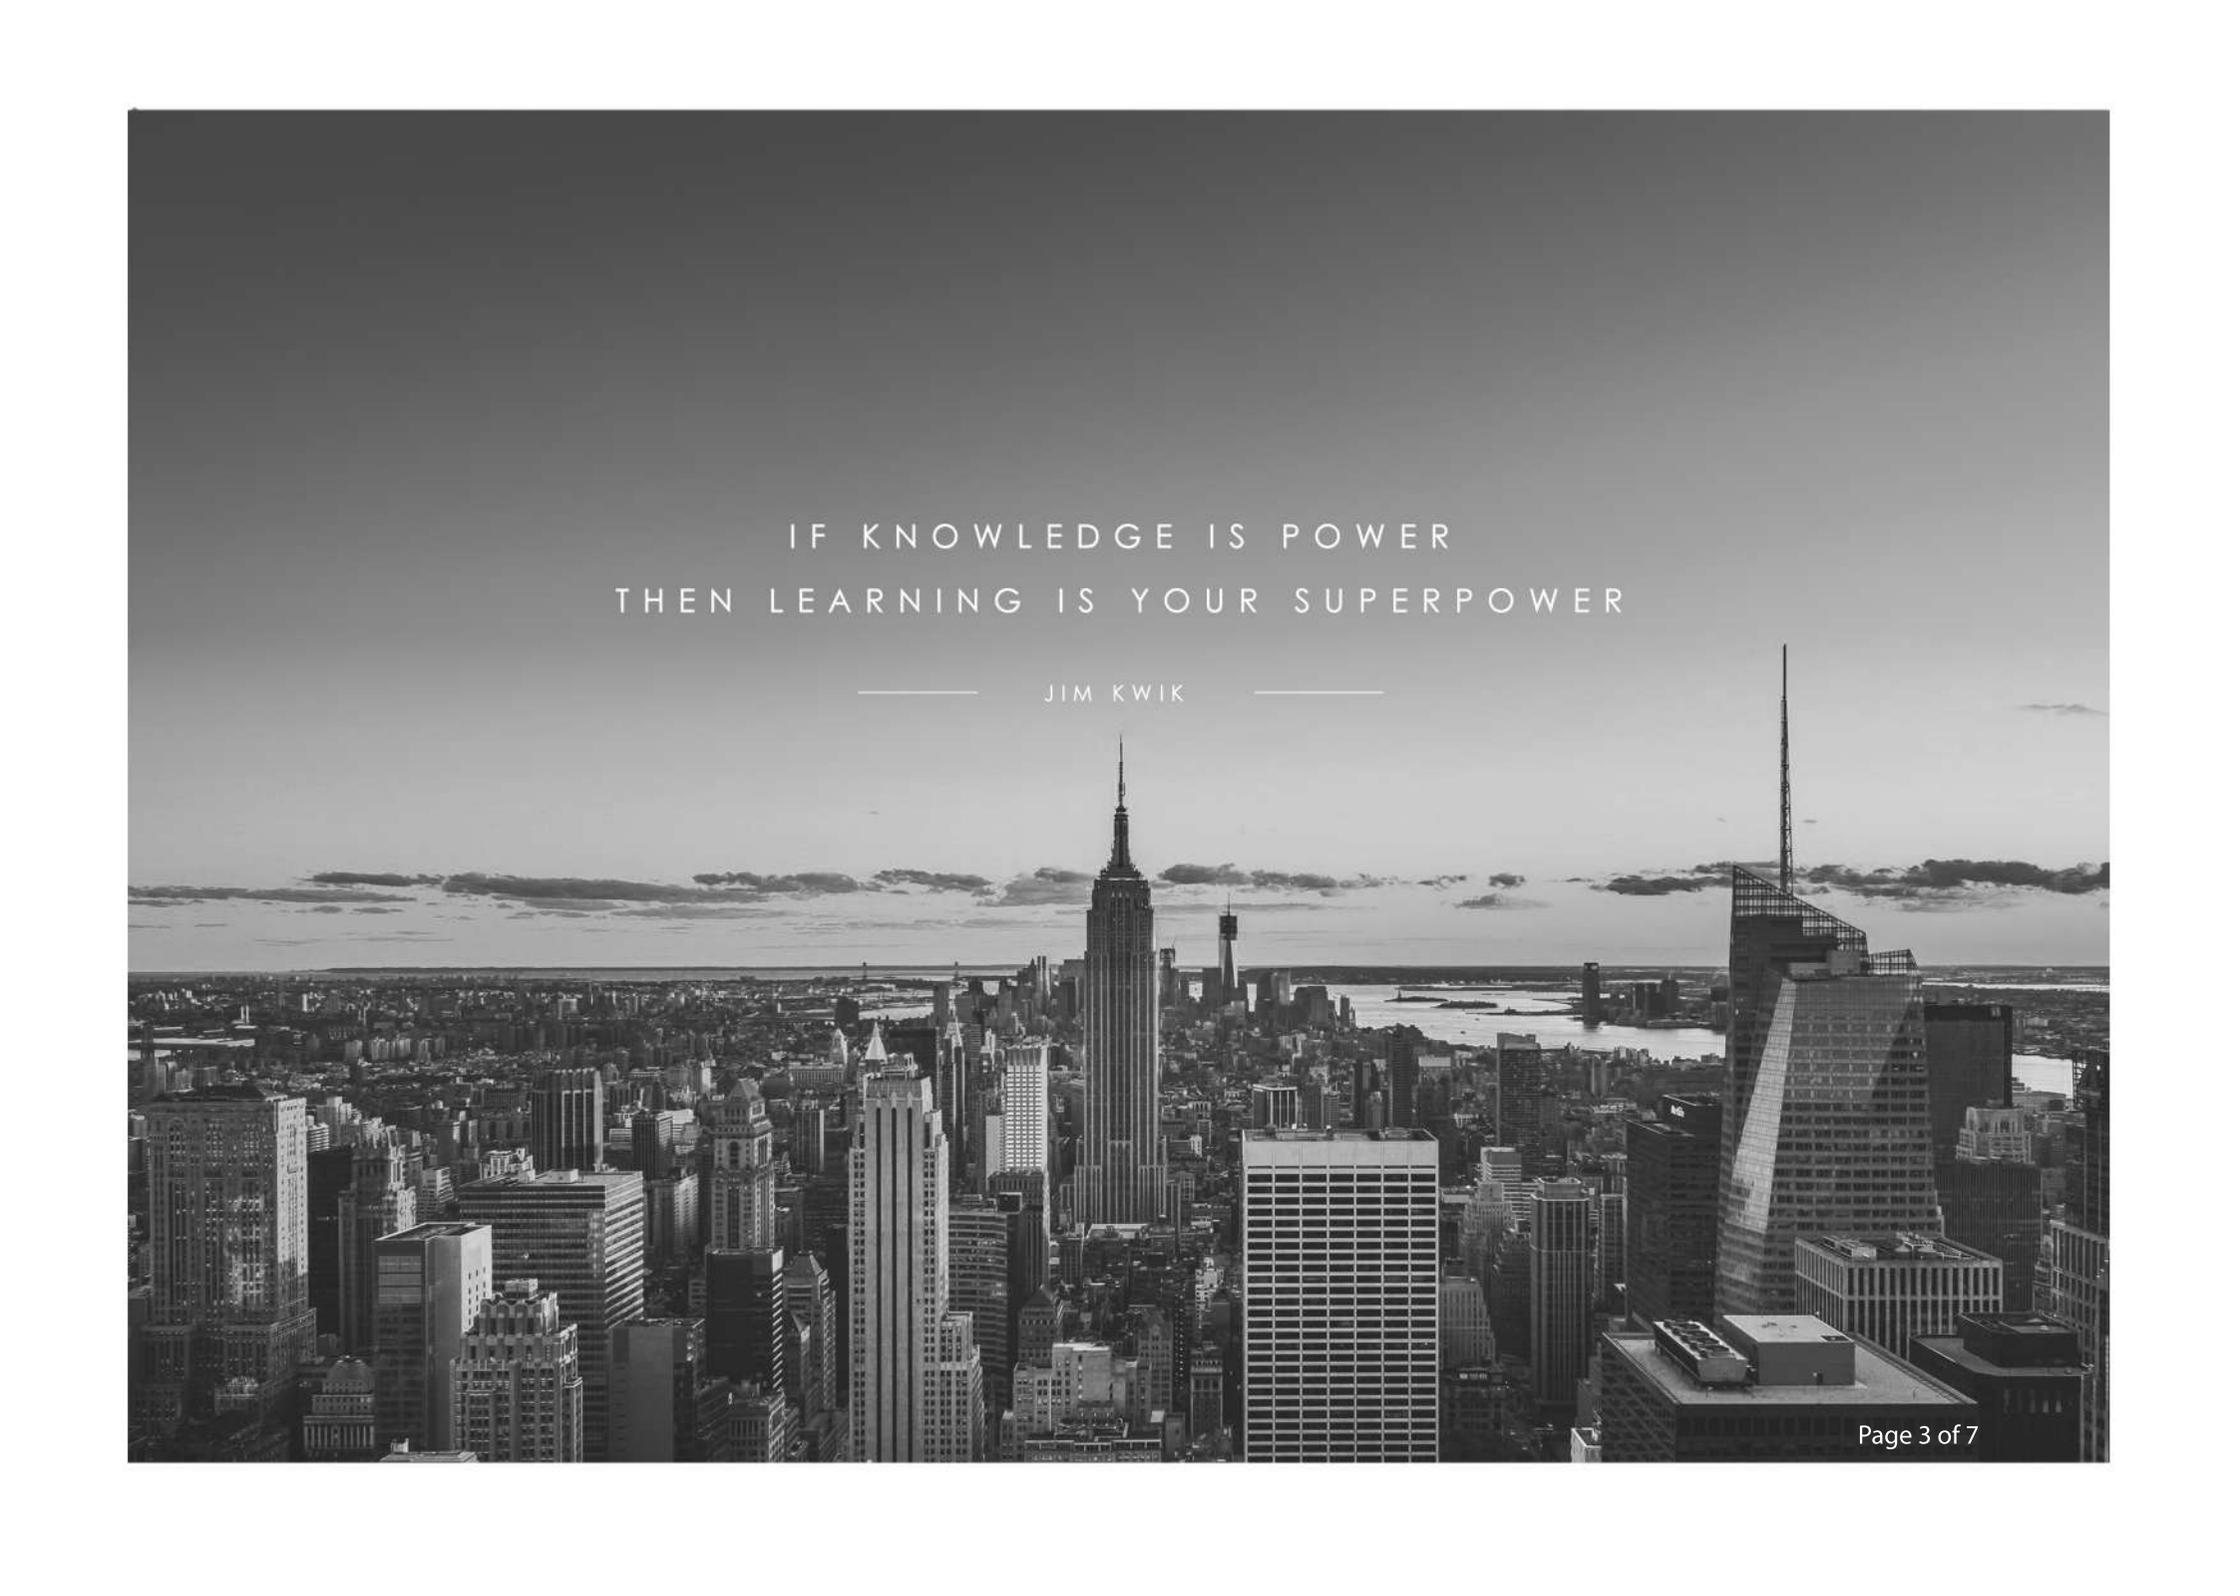

Ananda Pulungan (Parent)

SMP Kolese Kanisius – Jakarta

Our son was having trouble in adapting to school and its learning methods during his early junior high school year. He became uncommunicative, disappointed, and lose the motivation to learn that made him experienced a decline in academic performance. He was once said to me, "I love to learn but I hate studying". We felt very fortunate when introduced to Elite Tutors by a friend whose son has been enjoying the benefits of Elite Tutors program. Just about six months, our son's academic grade increased continuously. The more important was he enjoyed to learn and interact with the tutors. They befriended with him. Now, we are happy to see his joyful smile every day. Studying has become as interesting as learning to him.
